PROFESSIONAL SUMMARY

Motivated Full-Stack Web Developer and Computer Science graduate with strong knowledge in modern web development technologies and software engineering principles. Skilled in building responsive and scalable web applications using React, Node.js, Laravel, Django, PHP, MySQL, HTML, and CSS.

Experienced in designing user-friendly front-end interfaces, developing backend APIs, integrating databases, and maintaining code repositories using Git and GitHub. Currently working as a freelance full-stack developer, building projects and expanding technical skills while seeking an opportunity to contribute to a professional software development team.

Passionate about continuous learning, problem solving, and building technology solutions that address real-world challenges.

TECHNICAL SKILLS

Programming Languages:

- Java
- C++

- PHP
- JavaScript

Frontend Development:

- React
- HTML5
- CSS3
- Vite

Backend Development:

- Node.js
- Laravel
- Django
- REST API Development

Databases:

- MySQL

Development Tools:

- Git
- GitHub
- Visual Studio Code
- XAMPP
- Netlify

Other Skills:

- API Integration
- Software Debugging
- Responsive Web Design
- Software Development Lifecycle (SDLC)

SOFTWARE DEVELOPMENT PROJECTS

Bright Technology Web Platform

GitHub Repository: https://github.com/Wakhataephraim09/BrightTechnology

Bright Web Live Demo: https://wakhataephraim09.github.io/BrightTechnology/

- Designed and developed a full-stack web platform demonstrating integration between frontend and backend systems.
- Implemented responsive user interface components using modern web development technologies.
- Managed project source code using Git and GitHub version control.
- Organized project structure following modern software development practices.
- Demonstrated practical knowledge of database integration and web application architecture.

Task Management Web Application

Github Repository : https://github.com/Wakhataephraim09/task-management-system

Task Web Live Demo: https://wakhataephraim09.github.io/task-management-system/

- Developed a web-based task management system allowing users to create, update, and manage tasks.
- Implemented CRUD operations for task management and database interaction.
- Built frontend interface using React and backend functionality using Node.js.
- Stored application data using MySQL database.

Inventory Management System Web Application

Github Repository : https://github.com/Wakhataephraim09/ephraim-inventory-system

Inventory Live Demo: https://wakhataephraim09.github.io/ephraim-inventory-system/

- Built a web-based inventory management system for tracking product stock levels.
- Implemented product management features including adding, updating, and deleting products.
- Developed using Laravel framework and MySQL database.

- Designed administrative dashboard for monitoring inventory and generating reports.

Personal Developer Portfolio

Github Repository : https://github.com/Wakhataephraim09/portfolio

Portfolio Live Demo: https://wakhataephraim09.github.io/portfolio/

- Designing a personal portfolio website to showcase software development projects and technical skills.
- Implementing modern user interface using React and Vite.
- Integrating GitHub repositories and contact functionality for professional networking.

PROFESSIONAL EXPERIENCE:

Freelance Full-Stack Web Developer

May 2025 – Present

- Designing and developing full-stack web applications using React,Node.js,Laravel, Django, PHP, and MySQL.
- Creating responsive front-end interfaces that provide user-friendly web experiences.
- Developing backend APIs and integrating them with frontend systems.
- Managing project repositories using Git and GitHub for version control.
- Continuously improving development skills by building practical projects and exploring modern frameworks.

Customer Service Support – Fiberhome KE

July 2024 – May 2025

- Provided customer support for internet services and network connectivity issues.
- Handled technical inquiries and coordinated with field technicians to resolve service disruptions.
- Assisted in monitoring customer complaints and ensuring timely issue resolution.

- Developed strong problem-solving and communication skills in a fast-paced support environment.

Marketing Agent – Safaricom

April 2024 – June 2024

- Promoted Safaricom telecommunications products and services.
- Assisted customers in registration and activation of mobile services.
- Engaged with customers to increase product awareness and adoption.

Advertising and Sales Agent – Unilever

January 2024 – March 2024

- Promoted consumer products including Geisha soap, Royco cubes, and Blue Band products.
- Engaged retail shops and customers to increase product awareness and sales.
- Assisted with product branding and marketing campaigns.

ICT Consultant – Rubis Energy

August 2022 – December 2023

- Provided ICT support including network troubleshooting and technical issue resolution.
- Installed and configured CCTV security systems.
- Maintained network infrastructure and ensured optimal system performance.
- Documented network configurations and troubleshooting procedures.

ICT Intern – National Hospital Insurance Fund (NHIF)

June 2021 – September 2021

- Assisted with automated systems used for member registration and data management.
- Participated in system orientation sessions covering NHIF digital platforms.
- Supported staff in managing member data and ensuring system accuracy.

- Gained practical experience working with networked systems.

EDUCATION

Bachelor of Science in Computer Science

The Presbyterian University of East Africa

2017 – 2021

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Software Engineering
- Database Management Systems
- Web Development
- Operating Systems
- Object-Oriented Programming
- API Integration

PROFESSIONAL DEVELOPMENT

- Continuous learning in Full-Stack Web Development
- Building and maintaining projects on GitHub
- Practicing frameworks including React, Laravel, Django, and Node.js
- Expanding knowledge of modern web application development
